

## Directions to Cell Imaging in HCI Research North, Building 555

The Cell Imaging Core maintains microscopes and an office in HCI Research North, Building 555.

Research North is the building with the distinctive pointed front. It is North of Research South and South of the Huntsman Cancer Hospital. If you are not familiar with the location, please use the campus map (<https://bit.ly/2pnLMwO>.)

The Cell Imaging rooms are all on the first floor. Once you are in the lobby, head East past the elevators. Turn right and go through the double doors. The Cell imaging rooms are arranged in a square with a hall circling it.

Card access is needed for the microscope rooms.
